OAKLEY GOOGLE DNA

THE OAKLEY GRIP™
GRIP

ARE YOU FAST ENOUGH FOR THESE GOGGLES?

Introducing the new 0/20 Goggle System. For those who ride fast enough to need the most perfect vision possible. The curve of the 0/20's

highly scratch-resistant Lexan® lens is designed to be an exact section of a circle's

circumference—a perfect arc. The result is less distortion than any other goggle made.

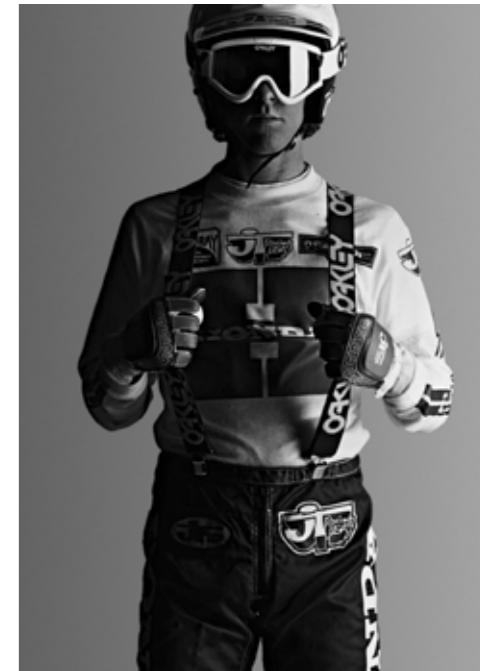

An extremely wide frame design allows maximum peripheral vision.

OAKLEY
Almost an unfair advantage.
Suggested retail price with Lexan lens: \$220.

Two wheels are in our DNA. We started with grips and expanded our expertise to optics technology – And our evolution continues.

Working with renowned athletes and fueled by our passion for sport, we test and prove theories, apply our advancements across the spectrum and push the boundaries of human possibility.

PRIZM™ LENS TECHNOLOGY

Made for more than just spotting obstacles, Prizm™ Sport - MX lenses help you see subtle transitions in dirt conditions so you can master all those split-second decisions to make the most of the ride. You'll ride with greater confidence because the precise color filtering helps you pick up fast lines, identify differences in dirt texture for traction control, and see deeper into ruts where the shadows live. Prizm MX and MTB lenses are engineered to perform under a wide range of light conditions, so when the track or trail takes you from sunlight to canopy shade, you'll have all the performance advantages of sharpened visual acuity and vivid color perception.

**HELPS YOU SPOT SUBTLE TRANSITIONS
IN DIRT CONDITIONS BY SEPARATING
SHADES OF BROWN.**

**ENHANCES VISUAL ACUITY AND DETAIL
FOR MAKING SPLIT-SECOND DECISIONS
WITH GREATER CONFIDENCE.**

**PERFORMS IN A WIDE RANGE OF LIGHT
CONDITIONS, INCLUDING RIDING IN
AND OUT OF TREE COVER.**

MX & MTB GOGGLE LENS TECHNOLOGY

OAKLEY HIGH DEFINITION OPTICS (HDO®)

Oakley High Definition Optics offers truer, more accurate vision versus conventional lenses. Oakley lenses are injection-molded under extreme pressure with high-impact Plutonite® to create a precise contour of optically correct geometry and clarity.

100% UV PROTECTION

- Oakley Plutonite® filters out 100% of all UVA and UVB.
- The lens material itself blocks UV, so you don't have to rely on a thin surface coating that can wear away or become scratched.
- Our optical technologies allow for lens curvature that improves protection at the top and sides of your eyes.

IMPACT PROTECTION

Designed to protect against high-impacts, and tested to meet and exceed the impact requirements based on ANSI Z87.1 and EN 1938 standards.

- High-velocity testing: Impact resistance against light objects at high speeds.
- High-mass testing: Impact resistance against heavy objects at low speeds.

ANTI-FOG PERFORMANCE

All Oakley MX and MTB goggles utilize our F3 and F2 anti-fog coatings to help absorb moisture and eliminate haze. Frame vents engineered to provide optimized airflow keep your eyes cool and comfortable.

INTEGRATED ROLL-OFF SYSTEM

A selection of Oakley MX goggles are available with a revolutionary roll-off system that utilizes an integrated cartridge canister inside the outrigger strap attachment for the ultimate in convenience and visibility.

LENS CHANGING

SWITCHLOCK® TECHNOLOGY

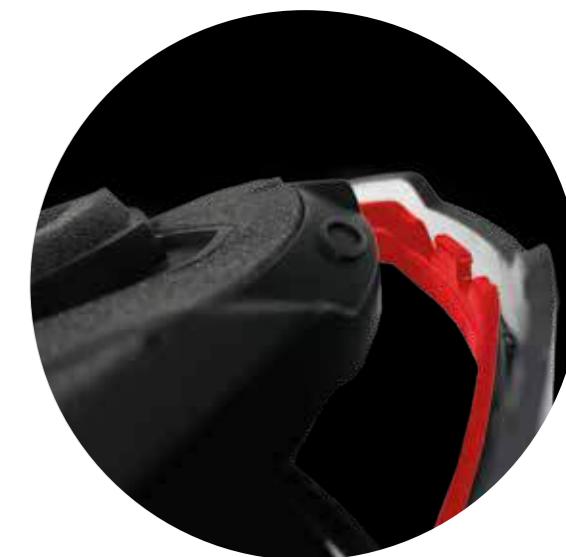

Discrete Switchlock mechanism located on each side of the frame is designed to allow you to quickly change lenses, and securely locks the lens in place.

RIDGELOCK TECHNOLOGY

Designed for rimless goggles, Ridgelock technology allows the frame to grab the ridge on the backside of the lens and secures it with keyway locks..

STANDARD

A lens lock system, the frame grabs the edge of the lens and is secured by keyway locks.

Pictured: Ridgelock technology

MX & MTB GOGGLE FRAME TECHNOLOGY

O-MATTER FRAME

A soft and pliable inner faceplate conforms to your face like it was made just for you. Select goggle frames are combined with flexible O-Matter.

TRIPLE LAYER FACE FOAM

All-day comfort with moisture-wicking polar fleece lining.

FACTORY LITE VENT MESH

Found on Oakley MTB goggles, this Factory Pilot Vent Mesh is designed to increase airflow and ventilation at slower speeds while helping to prevent mud, debris, and rocks from entering the goggle.

ADAPTABILITY

Select goggles are equipped with a fully adaptable and serviceable chassis, allowing you to easily swap outriggers between tear-off and roll-off configurations, replace worn out foam faceplates or switch the strap to match your style.

PRESCRIPTION COMPATIBLE

Discreet frame notches at temples provide compatibility with most prescription eyewear.

PRESCRIPTION EYEWEAR COMPATIBLE

SIGNATURE SERIES

ATHLETE SIGNATURE SERIES

CHASE SEXTON

Chase Sexton is one of the youngest racers in the 450 field. Known for his calculated-but-aggressive riding style, the Illinois native has proven his craft in both the AMA Pro Supercross and Motocross series. With two 250 Championships under his belt, Sexton has his sights set on winning his next title in the 450 Class. To match his consistency and style, his signature goggle was inspired by his favorite colors and uses clean, bold lines for a dramatic effect.

Prizm MX Sapphire 007046-C6

Prizm MX Black 007046-C8

JEFFREY HERLINGS

Jeffrey Herlings has accomplished more at age 27 than most racers achieve in a lifetime. With 99 Grand Prix wins and four championship titles, Herlings holds the all-time record for MXGP moto wins and GP wins. Because of his natural talent and ability of maintaining high speeds, Herlings has been nicknamed "The Bullet." To visually represent this, his signature goggle was inspired by high-speed images of shock waves from an actual bullet which is evident on the strap and frame design. Also included on the micro bag and strap wrap is the Dutch Republic lion which represents his hometown.

ELI TOMAC

Despite the endless obstacles he's faced throughout his career, Eli Tomac's undeniable determination has produced some of the most historical comebacks witnessed in motorcycle racing. As three-time AMA Pro Motocross 450MX champion and 2020 AMA Pro Supercross Series champion, Tomac's endless charge to the front continues to pay off. His signature goggle mimics his need for speed with inspiration drawing from racing exotic sports cars with hints of carbon fiber patterns.

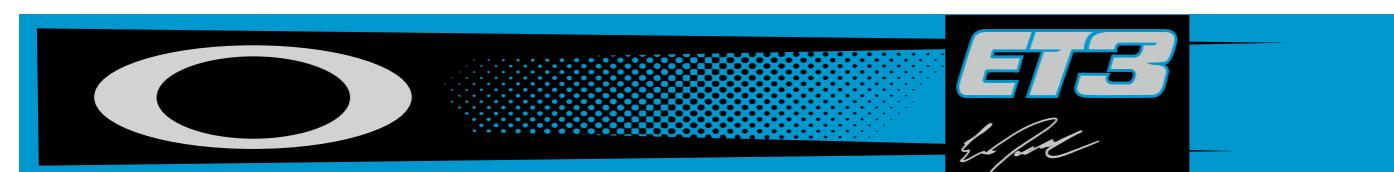

Prizm MX Sapphire 007046-C7

Prizm MX Black 007046-C9

TOBY PRICE

From winning multiple desert races to Australian Off-Road and Enduro Championships, Toby Price is easily considered one of the best off-road racers of our time. Not only is he two-time winner of the Dakar Rally, but he recently made history by becoming the first to win the Tatts Finke Desert Race on both two and four wheels. Anyone with that much talent on and off the bike can only be one thing, nuts.

MX GOGGLES

007087 FRONT LINE MX

Front Line™ MX brings a rimless design and large field of view to Oakley's High Impact line of goggles. With a large-to medium-sized fit, Front Line™ MX is optimized for a wide variety of faces and is engineered to fit perfectly with most helmets. Designed with Oakley's Ridgelock Technology, changing lenses is quick and easy, while still allowing for a complete lens seal to prevent harsh conditions from penetrating into your goggle.

PRIZM™ LENS TECHNOLOGY

Oakley Prizm™ lens technology has turned eyewear into vital equipment for sports. It all comes down to enhancing detail in the most precise ways to optimize your visual experience, and the result is game-changing performance.

We analyze the demands of each sport and environment to ensure each lens transmits the right wavelengths. That way, you can experience sharpened visual acuity that helps you see everything more clearly, and react more quickly. Beyond enhanced detail recognition that helps you spot what you need to see, Prizm Sport lenses improve your ability to see and track moving objects in your periphery. Whatever the sport, you'll have improved performance to help you compete with confidence.

PRIZM™ ROAD*

Engineered to help you see subtle changes in road texture and quickly spot hazards like rocks and potholes so you can perform with confidence.

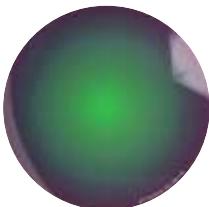

PRIZM™ ROAD BLACK

Engineered to help you see subtle changes in road texture and quickly spot hazards like rocks and potholes so you can perform with confidence on bright, sunny days.

PRIZM™ ROAD JADE

Engineered to help you see subtle changes in road texture and quickly spot hazards like rocks and potholes so you can perform with confidence on bright, sunny days.

PRIZM™ TRAIL TORCH

Engineered to help you spot transitions and textures between types of dirt and distinguish obstacles in a variety of light conditions so you can ride with confidence.

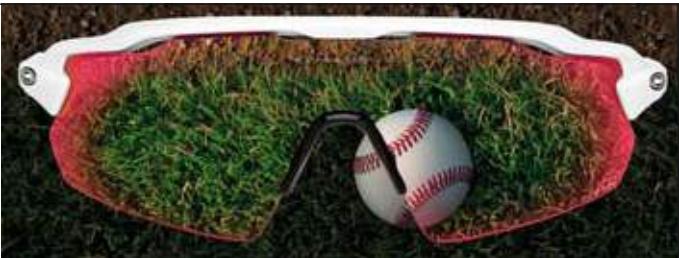

PRIZM™ LOW LIGHT

Engineered to help optimize detail recognition in low light conditions and artificial light environments without causing a color shift in your vision.

PRIZM™ FIELD*

Engineered to enhance contrast and help you easily track the ball against the sky, grass and dirt.

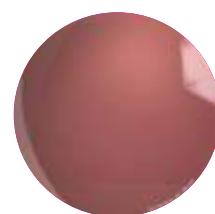

PRIZM™ GOLF*

Engineered to help you spot transitions between the fairway, fringe, and rough and gauge distance with accuracy to help you read the course better.

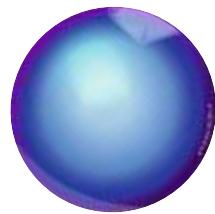

PRIZM™ DARK GOLF

Engineered to help you spot transitions between the fairway, fringe, and rough and gauge distance with accuracy to help you read the course better in bright, sunny days.

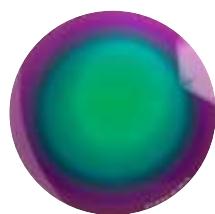

PRIZM™ DEEP WATER

Engineered to help you see what's under the surface by boosting colors that water absorbs and cutting through glare.

PRIZM™ SHALLOW WATER

Engineered to help you identify structure and drop offs, and cut through glare in freshwater environments.

PRIZM™ SNOW

Engineered to help you see snow contours, bumps and textures in a variety of light and snow conditions.

PRIZM™ LENS TECHNOLOGY

Oakley Prizm™ lenses fine tune individual colors, enhancing detail for an optimized experience. With ordinary sunglass lenses, the world looks dull and flat, but Prizm lens technology makes everything look vivid and vibrant. It's a breakthrough that comes from decades of research in optics for professional athletes, and it helps you make the most of everything from sports to everyday life.

GREY BASE

*Also available in non-polarized

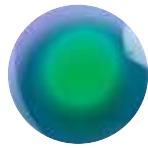

PRIZM™ BLACK POLARIZED*

PRIZM™ GREY POLARIZED*

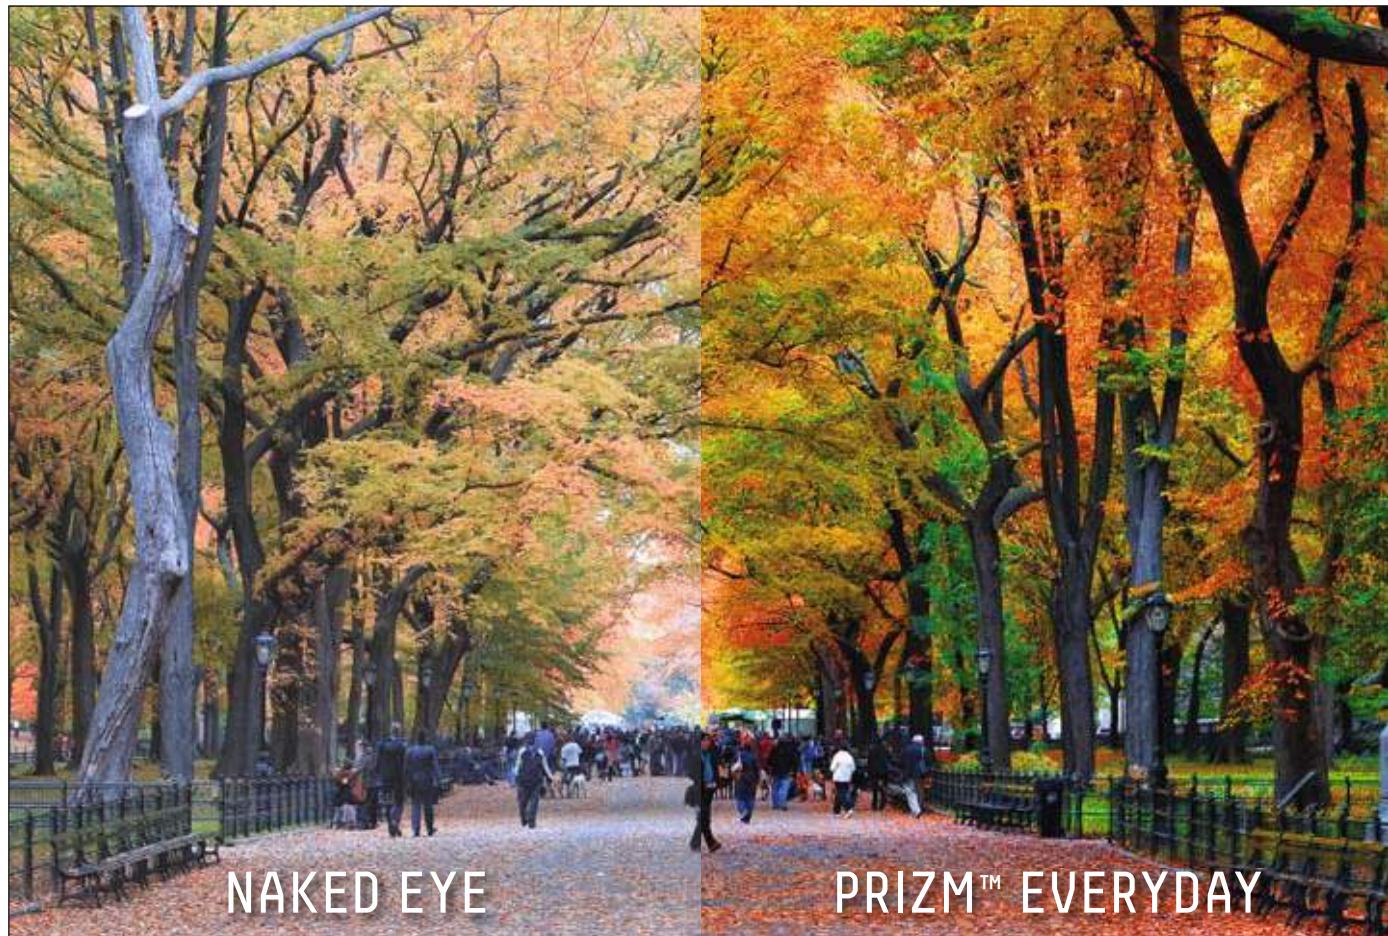

PRIZM™ SAPPHIRE POLARIZED*

PRIZM™ JADE POLARIZED*

Some of our most popular lens colors are now available in Prizm. We chose our top sellers, including rich hues of Iridium® such as Black, Tungsten, Ruby, Sapphire, Jade and 24K. Customers who prefer a non-mirrored look can choose Prizm Grey or Prizm Bronze, which do not have Iridium coating. Each of these Prizm lens colors are available with HD Polarized™ technology to cut glare.

BRONZE BASE

*Also available in non-polarized

PRIZM™ BRONZE POLARIZED*

PRIZM™ RUBY POLARIZED*

PRIZM™ ROSE GOLD POLARIZED*

PRIZM™ TUNGSTEN POLARIZED*

PRIZM™ 24K POLARIZED*

PRIZM™ VIOLET POLARIZED*

- Lens colors shown are representations only. Actual color may vary.
- Base colors signify the general tint of the lens. All Prizm lenses have unique bases that enhance color and contrast.
- Transmission values are for reference only. Actual values may vary from model to model. Please contact an Oakley representative for more information.
- Prizm Rx is only available in Oakley Authentic Prescription Lenses
- Some standard lenses are available only as accessory lenses

AVAILABLE IN PRESCRIPTION
'HAS AN IRIDIUM® LENS COATING

SUN LENS TECHNOLOGY

OAKLEY HIGH DEFINITION OPTICS (HDO®)

A combination of technologies and patented innovations that give you clearer, sharper vision, HDO® virtually eliminates the distortion common in high-wrapped sunglasses.

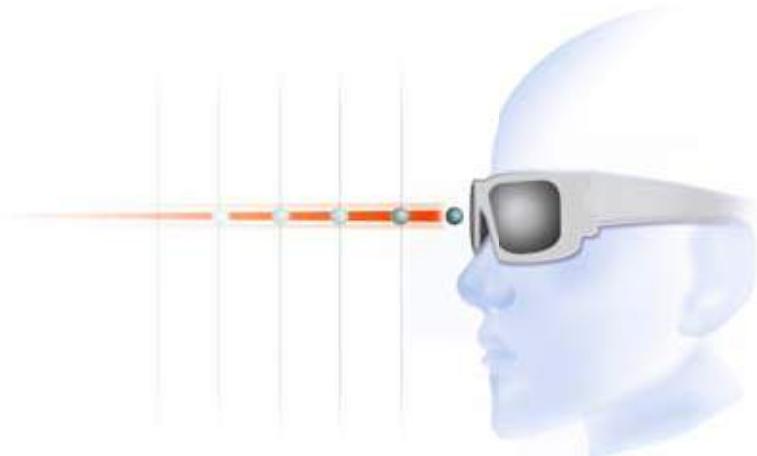

- REFRACTIVE POWER. Conventional lenses can magnify images. HDO® precision gives less distorted vision across the entire field of view.
- ASTIGMATISM. Ordinary lenses can't focus all light waves in the part of your eye that does the seeing. With HDO®, you won't have the blur of inferior optics.
- PRISMATIC POWER. With regular lenses, objects aren't really where you see them. HDO® offers a truer visual image, and it helps ensure each eye has the same image so your brain won't have to work overtime.

IMPACT PROTECTION

We go to great lengths to ensure our sunglasses protect your eyes. The lens material and frame geometry provide protection against high velocity and high mass impact.

- High velocity testing: Impact resistance against light objects at high speeds.
- High mass testing: Impact resistance against heavy objects at low speeds.

102 MPH

100% UV PROTECTION

- Oakley Plutonite® filters out 100% of all UVA, UVB, UVC and harmful blue light up to 400nm.
- The lens material itself blocks UV, so you don't have to rely on a thin surface coating that can wear away or become scratched.
- Our optical technologies allow for lens curvature that improves protection at the top and sides of your eyes.
- All Oakley sun lenses and Oakley Authentic Prescription Lenses provide 100% UV Protection

OAKLEY HD POLARIZED™

Oakley HD Polarized™ lenses block 99% of harsh glare and minimize eye strain. Our infusion molding process eliminates the glues, layering and distortion found in conventional polarized technology.

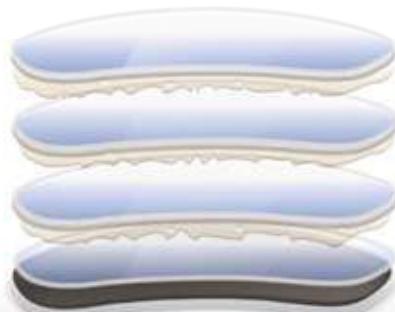

Other lenses are made up of multiple layers, attached with glue. Glue bonded layers diminish clarity and cause distortion.

One layer and no glue means the greatest possible clarity and least distortion. Look through less to see more.

OAKLEY: FUSED AT THE MOLECULAR LEVEL

VS.

COMPETITORS: GLUED LAYERS = DISTORTION

PHOTOCHROMIC

- Our photochromic lenses help you adapt to changing light conditions so you can always perform at your best.
- Your lenses won't be too dark when the sun pulls a disappearing act or too light when it knifes through the clouds.

LIGHT CONDITIONS

LENS ADAPTATIONS

OPTICAL LENS TECHNOLOGY

OAKLEY AUTHENTIC PRESCRIPTION LENSES

The Oakley Authentic Prescription Lens Program, including sun and optical styles, features Oakley's unparalleled optical innovations merged with leading technologies and features designed to meet, and exceed, the uncompromising demands of sport and everyday life. Only Oakley Authentic lenses are signed with the ellipse logo, an icon of uncompromising quality for proof of Oakley authenticity.

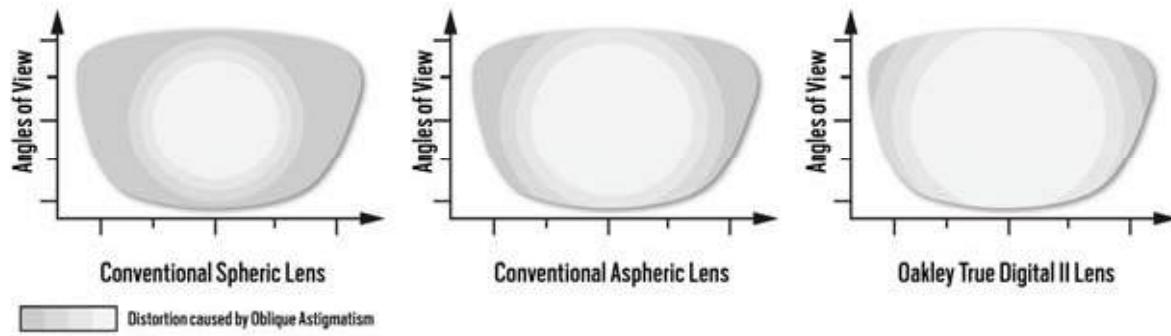

OAKLEY TRUE DIGITAL™ FREEFORM TECHNOLOGY

CORNERSTONE OF OAKLEY PRESCRIPTION OPTICS

- OTDI freeform technology delivers a more consistent power profile across the entire visible field of view

IMPROVED OPTICS AND INCREASED POWER CONTROL

- Wider power ranges with no frost in the lens periphery
- Minimizes oblique astigmatism for a wider field of view
- Faster adaptation & patient comfort

HIGH-WRAP SPORT FRAMES IN HIGH PRESCRIPTIONS

- This technology uses what we know about frame tilt, wrap, and vertex distance to optimize your doctor's prescription for your frame on your face.

UP TO A 8.75-BASE CURVE WITH A POWER RANGER OF +4.00 TO -6.00

SPORT-SPECIFIC SOLUTIONS

Best combination of materials, design and quality for optimal sport performance vision

OAKLEY SHIELDS WITH RX INSERTS

Using shield insert technology, the prescription is glazed on two separate lenses which are placed into the shield to provide corrected vision.

Available in the following Standard Lens Colors:

FRAME MATERIALS

O MATTER™

Oakley's injection molded thermoplastic O Matter™ frame material provides improved strength and flexibility over traditional acetate, and built to withstand from shifting or deforming over time.

C-5™

To produce the ultra-strong chassis of Oakley wire frames, five metallic compounds are fused into a single C-5™ alloy.

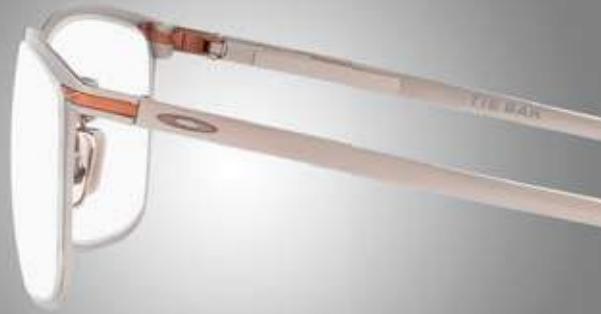

STAINLESS STEEL

The durability of an extremely high strength-to-weight ratio allows us to make stainless steel frames with comfortably thin architecture.

TITANIUM

An ultra-lightweight, virtually indestructible material used in fighter jets, titanium allows Oakley to produce some of the strongest, lightest and most comfortable Oakley frames.

NANO-MATTER™

Oakley's ultra-lightweight durable frame material allows for all-day comfort and resistance to the elements.

CARBON

With durability that comes from decades of research and development in sports innovation, this ultra-lightweight material provides superior comfort and flexibility.

ACETATE

Handmade layered acetate allows for a multitude of rich hues and colors, as well as visual textures, giving this frame material its high-quality look and feel.

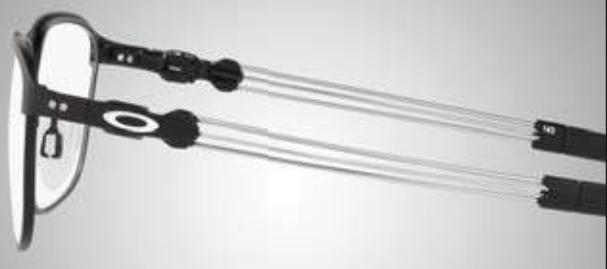

ALUMINUM

The high strength-to-weight ratio of Oakley's aerospace-grade aluminum alloy enables the bold styling of sculptural designs in a durable and very lightweight frame construction.

NANOWIRE™

Comprised of incredibly sleek and ultra-lightweight titanium alloy, Oakley Nanowire™ creates sculptural contours without sacrificing comfort or flexibility. Shape-shifting Memory Metal flexes and springs back into place, providing an adaptable fit that borders zero gravity.

FRAME TECHNOLOGY

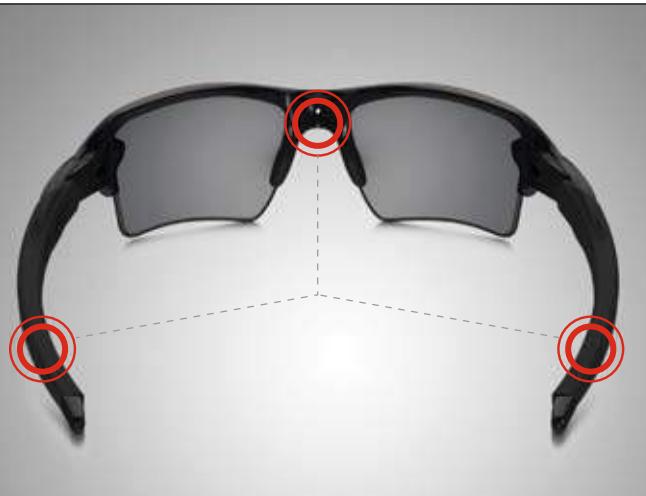

ADVANCER™ TECHNOLOGY

Oakley® Advancer technology is designed to instantly open airflow to help combat fogging and overheating. With a simple pull of a toggle, wearers are able to harness cooling airflow so they can focus on their performance and not the conditions around them. The Advancer is available in sport performance frames, such as Flight Jacket and Radar® EV Advancer, and a more streamlined lifestyle version is available in active frames such as Oakley Anorak and Rev Up.

THREE-POINT FIT

Oakley's Three-Point Fit ensures that each frame makes contact only at the bridge of the nose and behind the temples. This retains optics in perfect alignment, maintains a secure fit and eliminates the discomfort of ordinary frames that hook the ears with unbalanced pressure points.

UNOBTAINIUM®

First introduced on our sport performance products, Unobtainium® earsocks and nosepads provide increased comfort and performance. Increases grip with sweat.

SWITCHLOCK® TECHNOLOGY

Adapt and conquer with Oakley Switchlock® Technology. Oakley Switchlock® Technology's simple switch mechanism makes the process of lens changing quick and hassle-free.

TRUBRIDGE™ TECHNOLOGY

With our revolutionary frame fitting system, a perfect fit is easy, so you can choose whatever style you want and not worry about how it will feel. TruBridge™ technology adapts the frame to the width and depth of your nose bridge, so you never have to pass up a style you love. TruBridge technology creates an optimized fit with four different size O Matter™ nosepads.

TRUBRIDGE™ + UNOBTAINIUM®

A key solution to the issue of varying nose bridge widths and depths but with an improved fit, comfort and retention, this next generation of TruBridge technology creates an optimized fit with three different size no-slip Unobtainium nosepads.

NO-SNAG NOSEPADS

Oakley's patented, hassle-free and adjustable nosepads won't snag or pull on hair. Transitioning eyewear from the top of your head to face has never been easier.

HINGES

LATCH

The Latch hinge is an interior kick-up feature that lets you clip your glasses to your shirt, allowing you to safely stow your eyewear and move seamlessly through your day.

HOLLOWPOINT™

Inspired by hubless motorcycle wheels, the Hollowpoint™ hinge has a self-contained spring cam mechanism and internal piston, showing an elegantly minimalist design.

MONOSHOCK™

Flexibility, comfort and fit are combined through mechanical precision to create the refined aesthetic of this single tine hinge.

TWINSHOCK™

Inspired by pro-racing, the dual tine structure of the hinge is similar to leaf springs used for shock absorption, combining durability, flex and comfort.

009471 ENCODER™

Purpose-built for use across multiple sport categories, Encoder™ is a sport performance style designed with hat and helmet fit functionality in mind. The progressive wrap design creates a unique look with superior coverage and enhanced field of view. The extended wrap of the lens, coupled with calibrated rigidity and low-profile temples make Encoder™ an obvious choice for a broad range of sports across a variety of light conditions.

009467 CMDN

For the development of CMDN, Oakley® was developed with inspiration taken from cultural undercurrents and with a nod to our heritage. The resulting unisex sunglass is a fresh take on the brand's iconic shields with a progressive, head-turning design. CMDN features a wide field-of-view lens and modernized trigger stem (influenced by Oakley's Razor Blades, an homage to the brand's past). A strong yet light O-Matter™ frame helps provide durability and all-day comfort.

006046 DEADBOLT

Embrace unconventional design with Oakley® Deadbolt, a progressive sunglass design equipped with Prizm™ Lens Technology, that embodies the desire to push boundaries and challenge the norm. Oakley's design and engineering teams analyzed every inch of this frame, from the round silhouette and unique stem architecture, to using a single element to connect the frame and temples, to ensure no detail goes unnoticed in this dramatic approach of eyewear.

009013 FROGSKINS®

In pop culture, it was a time like no other. Ronald Reagan was in the White House, The Terminator was in the box office and Run DMC was in certified gold. It was also the time when Oakley created one-of-a-kind sunglasses called Frogskins®. Oakley resurrected the original tooling from the '80s giving you a chance to own a piece of history.

009464 HSTN

Oakley® melds progressive design with heritage features in HSTN, a gender-neutral sunglass with striking modernized circular lenses. HSTN features Prizm™ Lens Technology and a modernized trigger stem (influenced by Oakley's Razor Blades, an homage to the brand's past). A lightweight and durable O-Matter™ frame helps provide all-day comfort and comes in two sizes for a more seamless fit. HSTN is available with Oakley Authentic Prescription lenses.

009100 LEFFINGWELL

Leffingwell features a full rim, square lens shape infused with design inspiration taken from the craftsmanship and finishes of surfboards and the lifestyle around surfing.

The plant-based BiO Matter frame has antique-finished decorative elements and textured temples. The subtle Oakley logo on the temples is designed for those who gravitate toward subtle, elevated design aesthetics. Leffingwell comes with Prizm™ Lens Technology designed to enhance color and contrast to see more detail.

009479 MANORBURN

With its lightweight O-Matter™ frame and enduring simplicity, Manorburn provides a classic silhouette and design when versatility and simplicity are in order. Inspired by its cousin, Sylas, the frame adapts well to a variety of faces and the adjustable Ace Fit temples allow for ideal adjustment. When paired with Prizm™ Lens Technology or Oakley Authentic Prescription lenses, this frame redefines casual style and functionality.

009469 WHEEL HOUSE

Wheel House brings a fresh shape with smooth, deep squares, to the market.

Leveraging the immensely popular Hollowpoint hinge, the style draws inspiration and subtle details from Pitchman and Pitchman R, two best-selling styles that paved the way for this classic, prescription-ready frame.

PRIZM™ DAILY POLARIZED COLLECTION

With ordinary sunglass lenses, landscapes look washed out, dull or flat. The view is better with Prizm™ lenses because the technology enhances all colors in an environment, making dull colors warm and rich for a more pleasing visual experience. Great for all-day wear, Prizm™ Daily lenses improve comfort in varying light conditions, and they feature premium HD Polarized optics that cut glare and keep your eyes comfortable when you're driving.

PRIZM™ DAILY POLARIZED COLLECTION 009102 HOLBROOK
009102-B5 Steel w/ PRIZM Daily Polar

PRIZM™ DARK GOLF COLLECTION

Prizm™ Dark Golf is engineered to help you spot transitions between the fairway, fringe and rough, gauging distance with accuracy to help you read the course better in bright, sunny conditions.

PRIZM GAMING™ COLLECTION

Oakley®'s new Prizm Gaming™ 2.0 Collection makes Prizm Gaming™ lenses available for the first time without a prescription, so you can enjoy the benefits of Prizm Gaming™ 2.0 no matter your vision needs. The collection includes the gaming-specific style NXTLVL and popular headset compatible styles like Holbrook, Pitchman R, and Wheel House, all equipped with the newest generation of Prizm Gaming lenses that have been updated to decrease the yellow tint visible to the naked eye and optimized for both OLED and LED screens.

Intentional blank page

A close-up, profile photograph of a young woman with long, straight blonde hair. She is wearing round, thin-frame glasses and a blue and white plaid shirt. She is smiling warmly at the camera. The background is a soft-focus outdoor scene, possibly a beach or coastal area.

RX / WOMEN'S

OX8057 DRAW UP NEW

Simple elegance and tried-and-true durability come together in Oakley®'s Draw Up, a full-rim, round prescription eyewear for women. The I Lightweight O Matter™ frame material provides all-day comfort, alongside ace-fit temples and adjustable clear grip-fit nosepads that help provide a seamless look. Draw Up is available with Oakley Authentic Prescription lenses which come laser etched with the iconic ellipse logo on the left wearing lens for proof of Oakley authenticity and quality.

A vibrant photograph capturing three young children at a park. In the foreground, two girls are the focal point, both wearing helmets and crouching low on their longboards. The girl on the left wears a black tank top, plaid shorts, and black Converse-style sneakers; she has dark hair and wears glasses. The girl on the right wears an orange zip-up hoodie, dark shorts, and white sneakers; she wears a green helmet with a cartoon character. To the left, a smaller child in a red shirt and blue pants, also wearing a helmet, skates away from the camera. They are on a paved surface with a red safety line, set against a backdrop of lush green trees and a chain-link fence under a clear blue sky.

OJ9010 RESISTOR NEW

Oakley® releases Resistor, its first sunglass built entirely from the ground up with a focus on youth. Resistor takes style and function cues from popular adult styles like Sutro, while offering a design that accommodates the next generation of athletes. An O Matter™ frame balances flex and impact protection, while a high-wrap shield lens mimics other classic styles from Oakley. Unobtainium® nosepads help provide a no-slip fit and Prizm™ Lens Technology enhances color and contrast across a variety of environments and activities. Resistor is available in a variety of colorways, including a Patrick Mahomes Signature Series version featuring a gold frame with Prizm 24K lenses.

OY8023 QUAD OUT

Quad Out follows in the footsteps of Round Out while blazing its own path. The frame's mixed-material design is inspired by its predecessor, while a new shape sets it apart from the pack. Stainless steel temples with Unobtanium earsocks increase grip to help keep your eyewear securely in place all day and night. Get a complete Oakley eyeglass when you pair Quad Out with Oakley Authentic Prescription lenses that come laser etched with the iconic ellipse logo for proof of authenticity and quality.
